Entry2Exit Visitor Lifecycle Management

www.bluechipgulf.ae

One-stop Visitor Management

- ▶ **Contactless visitor check-ins** - Create a touchless virtual lobby that visitors can enter via their personal smartphone.
- ▶ **Digital visitor badges** - Go paperless & share e-badges with visitors via SMS/email once they confirm check-in
- ▶ **Visitor pre-registration** - Enable staff to invite guests, share Wi-Fi privileges, location coordinates, with a few clicks
- ▶ **Emergency broadcasts & alerts** - Broadcast emergency alerts to everyone present on the premises with a single click
- ▶ **Blacklists & watch lists** - Create blacklists based on keywords to deny access and entry to high-risk individuals
- ▶ **Configurable visitor flows** - Create unique check-in flows for different visitor categories with a simple drag & drop
- ▶ **Real-time visitor analytics** - Derive insights such as peak hours, check-in speed, etc. to optimize processes further.

The image shows a white smartphone with a gold-colored bezel, displaying a visitor sign-in application. The screen is white with a clean, modern design. At the top, there's a status bar showing signal strength, time (9:41 AM), and battery level (100%). Below the status bar, there's a toggle switch labeled "Been here before?". The form consists of several input fields with labels and red asterisks indicating required fields. The fields are: "First Name" with the value "Indiana Johnes", "Mobile No." with the value "0509081917", "Email ID" with the value "Indiana@gmail.com", "Purpose of Visit" with a dropdown menu showing "Pre-Confirmed Meeting", and "Pass Number" with the value "122". At the bottom of the form is a large, rounded rectangular button labeled "SUBMIT".
